

Name: _____

Maria the Monkey wants to move to a new home. Monkeys live in the trees of rainforests. Maria wants to find a new and unique tree to live in that will survive and last for a long time so that her family can stay there for many years. Create your own rainforest tree. Explain what adaptations the tree has, so that the tree can survive for a long time to allow Maria and her family to live there.

Illustration:

Explanation:

A large empty rectangular box with a black border, intended for drawing an illustration of a rainforest tree.

A large area with horizontal blue lines, intended for writing an explanation of the tree's adaptations.
